

Electric Lock
With RFID Card & Remote

HV-DL-205M-R
ELECTRIC INTELLIGENT LOCK

Features

- Uses intelligent control system and automatically lock door by induction
- There is no direction restriction, left, right, inside and outside and all kinds of other direction also apply
- Customer's want to replace general electric lock, time - saving , convenient, because hole of installation lock is consistent
- No shock, automatically reset, low noise , low power consumption and small requirements for door closer
- With feedback signal and LED light
- Working voltage : 12 to 18V DC
- Working current : 100mA

Technical Specification

HV-DL-205M-R

Thickness of lock body

Model	HV-DL-205M-R
Cylinder quantity	Dual Cylinder
Finish	Nickel Plating
Extension length of dead bolt	20mm
Keys	5 pcs Computerized keys
Working voltage	12VDC \pm 10%
Working current	350mA
Static current	25mA
Lock - opening Delay Time	Automatically Lock within 9s if not opened
Service life	500,000 times
locking method	Magnetic Induction
Surface temperature	Low Temperature
Suitable humidity	0 - 90% (non-condensing)
Advantage	Low noise, low consumption, long life
Holding force	1000kg
Open ways from outside	Keys, Card or Remote Controller
Open ways from inside	Rotary Knob or Remote Controller
Weight	2.1kg/Unit
Operating temperature	-40°C~50°C
